#11 in Australia's Best Workplaces in Technology 2023

Microsoft Partner of the Year 2023

Awesome team of passionate technologists delivering cutting-edge Cloud projects

At Insight, our mission is that every employee is recognised and valued as their whole self and that our globally diverse and multicultural clients, partners and communities are reflected within Insight. As an equal opportunity employer, diversity, inclusion, and belonging will continue to be a particular focus in 2024.

We are seeking a passionate and driven **Senior Consultant** to be responsible for reviewing, assessing and recommending Security governance artifacts in policy, standards or security frameworks in alignment with Microsoft Cloud capabilities and best practices when applicable. You will be a subject matter expert who will be engaged in delivery of solutions for our valued clients and who also provides specialist IP support to sales and services teammates.

Expertise we are looking for:

Demonstrable experience in the **Governance, Risk and Compliance** space

Strong expertise developing reports & assessments based on Security standards or frameworks.

Experience working with **Essential 8 controls**

Development and improvement of processes and approaches to governance engagements.

Working with **risk frameworks and Information Security risks** specifically.

Exposure/experience to **Microsoft cloud security and compliance capabilities**

Principle Accountabilities And Responsibilities:

This will be a client facing role working on projects with support and direction from senior project team members.

Researches and evaluates client Governance artifacts or security control conformance to a framework; draws conclusions; and develops recommendations or reports in accordance with engagement objectives.

Identifies and resolves project issues with clients.

Supports identification of business and technical requirements.

Recommends and advises clients on areas of framework conformance or regulatory compliance deficiency.

Helps to develop roadmaps to improve security posture in alignment to business strategy.

Develops and maintains effective customer and user relationships, including representing Insight at conferences, User Groups and other marketing/PR activities as appropriate.

Ensure that all tasks performed comply with Insight's Policies and Procedures

We enjoy...

Flexible work arrangements

Regular company sponsored social events

Paid training

A culture of innovation

Dedicated career pathways and development planning

Awards and incentives

Supportive and approachable management

Competitive salaries and benefits

Option to purchase annual leave

Fun, friendship and family

About Insight:

At Insight we live our values of Hunger, Heart and Harmony every day. These values form part of our DNA and represent how we build and maintain relationships with our teammates, partners, clients and the community.

Insight was started in a garage in 1988 by two brothers, Eric and Tim Crown, and today we are a Fortune 500 company, driving to become the No. 1 Solutions Integrator globally. We are proud to be recognised as a Great Place to Work Certified™ in Australia, New Zealand, Hong Kong, Singapore and China. Come, join this great team of talented people.

Application Details:

We are building a workplace where all people thrive, and individual difference is celebrated, and we seek out people from diverse backgrounds. So come join us and be part of our ongoing success.

We will endeavour to contact you within five business days, should we feel your profile is a good match for this role. If you do not hear from us within this timeframe, please presume that on this occasion, your application was not successful.

A full job description will be provided upon application.
